4) Issuer's Business, Products and Services

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

MineralRite Corporation (the "Company" or "MineralRite,") was incorporated in Nevada in October, 1996, under the name PSM Corp. The Company's name was then changed to Royal Quantum Group, Inc. on November 23, 2005. On August 31, 2012 the board of directors approved the change of the Company's name to MineralRite Corporation, reflecting the new direction in which the Company's management intends to lead it. On December 3, 2012, the Company's trading symbol was changed from "RYQG" to "RITE." The Company's principal executive offices are located at 539W Commerce Street #1838, Dallas, Texas 75208; telephone: (702) 843-6040. Our website address is www.mineralrite.co.

B. List any subsidiaries, parent company, or affiliated companies.

NONE

C. Describe the issuers' principal products or services.

The Company's Existing and Planned Business Expansion. MineralRite has focused on mineral processing, certification, streaming, and sales of base and precious metals. MineralRite's mandate is to identify and optimize opportunities in the small and junior sized mining industry. The Company is currently seeking funding for operations. There can be no assurance that additional financing will be available on terms favorable to the Company or at all. If adequate funds are not available or are not available on acceptable terms, the Company will not be able to fund its operations. Such inability to fund operations will have a materially adverse effect on the Company's business, results of operations and financial conditions. The current fees of the Company are being paid by the President of the Company.

The Company is currently seeking a partner for (i) mining and mineral acquisitions; (ii) direct income mine and mineral royalty acquisitions; (iii) reverse merger opportunities within the mining and mineral space; and/or (iv) any other reverse merger opportunities.

5) Issuer's Facilities

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

MineralRite Corporation
Notes to Financial Statements
March 31, 2023

(1) Basis of Presentation and Organization

MineralRite Corporation (“the Company”) was incorporated in Nevada on October 22, 1996 under its original name PSM Corp. The Company changed its emphasis to the exploration and development of natural resources and on November 23, 2005 changed its name to Royal Quantum Group, Inc. On October 18, 2012, the Company again changed its name from Royal Quantum Group, Inc. to MineralRite Corporation. On August 31, 2012, the Company declared a 50-for-1 reverse stock split of its common stock. All references in the accompanying consolidated financials to the number of shares outstanding and per-share amounts have been restated to reflect this stock split. In April of 2021, the company merged into Texas and became a Texas Corporation. The total number of shares authorized increased to 20,000,000,000. The merger was perfected and the company moved from Nevada completely on November 17, 2021.

On March 1, 2013, the Company acquired 100% of the total shares outstanding of Goldfield International, Inc. (“Goldfield”) in exchange for issuing 2,000,000 shares of its common stock. The acquisition was based on the fair value of the shares issued amounting to \$900,000. The accompanying consolidated financial statements include the accounts and balances of the Company and also of Goldfield since the date of its acquisition. All material intercompany transactions have been eliminated. Goldfield is in the business of manufacturing gold mining equipment.

On April 24, 2013, the Company entered into a joint venture agreement with CSI Export and Import (“CSI”) to mine copper ore on leased acreage in Chiapas, Mexico. For \$850,000, the Company acquired a 50% in the joint venture which has a 25% participation interest in the production and sale of the indicated copper ore. The Company accounts for its investment in with CSI under the equity method pursuant to ASC Topic 323-30. This amount was fully impaired as of December 31, 2013 due to impairment as CSI did not execute on their part of the joint venture and repayment is doubtful.

Pursuant to a settlement agreement and related court order, effective December 6, 2013, the Company issued 30,000,000 shares of its common stock and transferred its oil and gas operations including related assets and liabilities to Santeo Financial Corporation and other creditors in exchange for the cancelation of debt totaling \$325,568. For financial statement presentation purposes, the oil and gas activities for 2012 and 2013, and assets and liabilities directly relating to the oil and gas operation, are accounted for pursuant to ASC Topic 205-20 “Discontinued Operations”.

On January 1, 2015, the company entered into a security agreement and \$139,000 worth of promissory notes with L Kent Harmon, Steve Durant, Robert Underwood securing all Goldfield assets in order to secure various loans that have been advanced from a period of time from the date of the agreement in order to cover operational costs of Goldfield.

On June, 2015, the Company entered into a joint venture agreement with MEK Mining (“MEK”) to mine Gold Ore on leased acreage in Ghana. For \$150,000, the Company acquired a 50% in the joint venture which has a 20% participation interest in the production and sale of the indicated gold ore. The Company accounts for its investment in with MEK under the equity method pursuant to ASC Topic 323-30. This operation was in production during 2015 until government regulations were changed and all mining in Ghana was shut down for two years. It is planned to restart operations in 2022 when sufficient funding has been arranged.

On July 15, 2015 pursuant to a security agreement, effective January 1, 2015, the Company transferred its equipment manufacturing operations including related assets and liabilities to L Kent Harmon, Steve Durant, and Robert Underwood in exchange for the cancelation of debt totaling \$139,000. For financial statement presentation purposes, the equipment manufacturing activities for 2015, and assets and liabilities directly relating to the operation, are accounted for pursuant to ASC Topic 205-20 “Discontinued Operations”.

On February 16, 2018, the Company filed a Form 15 certification and notice of termination of registration under Section 12(g) of the Securities Exchange Act of 1934 or suspension of duty to file reports under Sections 13 and 15(d) of the Securities Exchange Act of 1934.

Since 2021, the Company has been working on pursuing merger acquisition candidate negotiations, while at the same time, working to bring the Company current.

On or about April 1, 2021, the Company changed its principal address to 539 W Commerce St #1838, Dallas Texas 75208. The Company also engaged independent professionals who rendered an opinion that the company would be best served to reincorporate in Texas in order to benefit from certain jurisdictional advantages. After engaging various professionals to effectuate this change, the Company has since learned that the advice on which this jurisdictional change was based appears to have been flawed. As such, the Company is now in the process of re-establishing its corporate jurisdiction back in Nevada. This will require a number of corporate actions, which will be undertaken under the watchful eyes of the Company's newly engaged staff of experts.

The Company is currently seeking funding for operations. There can be no assurance that additional financing will be available on terms favorable to the Company or at all. If adequate funds are not available or are not available on acceptable terms, the Company will not be able to fund its operations. Such inability to fund operations will have a materially adverse effect on the Company’s business, results of operations and financial conditions. The current fees of the Company are being paid by the President of the Company.

Financial Statements

The accompanying financial statements of MINERALRITE CORP, for March 31, 2023 and December 31, 2022 have been prepared in accordance with U.S. generally accepted accounting principles (GAAP). The accompanying financial statements have not been audited or reviewed.

In the opinion of management, the financial statements include all known adjustments (which consist primarily of normal, recurring accruals, estimates, and assumptions that impact the financial statements) necessary to present fairly the financial position as of the balance sheet dates and the results of operations for the years then ended, and cumulative from inception.

Fair Value of Financial Instruments

SFAS No. 107, “Disclosures about Fair Value of Financial Instruments”, requires disclosures of information about the fair value of certain financial instruments for which it is practicable to estimate that value. For purposes of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation. The carrying amounts of the Company’s financial instruments, including cash and cash equivalents, accounts receivable, advances to suppliers, accounts payable and accrued expenses, line of credit, notes maturity for these instruments.

Cash and Cash Equivalents

For the Statements of Cash Flows, all highly liquid investments with maturity of three months or less are considered to be cash equivalents.

Property and Equipment

Property and equipment are recorded at historical cost. Major additions and renewals are capitalized and depreciated over their estimated useful lives. The Company uses the straight-line method of depreciation. The estimated useful lives for significant property and equipment categories are as follows:

Office and computer equipment	3-7 years
Machinery and equipment	5-10 years

Impairment of Long-Lived Assets

The Company evaluates the recoverability of long-lived assets and the related estimated remaining lives at each balance sheet date. The Company records an impairment or change in useful life whenever events or changes in circumstances indicate that the carrying amount may not be recoverable or the useful life has changed. During the periods ended December 31, 2022 and December 31, 2021, if and when any such assets were deemed by the Company to be not recoverable, then the Company fully depreciated those assets.

Loss per Common Share

Basic net loss per share is calculated based on the weighted-average number of common shares outstanding. Diluted net loss per share is calculated using the weighted-average number of common shares outstanding plus common stock equivalents. Common stock equivalents are excluded from the calculation of diluted net loss per share when their effect is anti-dilutive.

Stock-Based Compensation Arrangements

The Company accounts for stock-based compensation arrangements in accordance with guidance provided by the Financial Accounting Standards Board Accounting Standards Codification (“ASC”). This guidance addresses all forms of share-based payment awards including shares issued under employee stock purchase plans, stock options, restricted stock and stock appreciation rights, as well as share grants and other awards issued to employees and non-employees under free-standing arrangements. These awards are recorded at costs that are measured at fair value on the awards’ grant dates, based on the estimated number of awards that are expected to vest and will result in charges to operations.

From time to time, the Company’s shares of common stock have been issued as payment to employees and non-employees for services and the reduction of debt. These are non-cash transactions that require management to make judgments related to the fair value of the shares issued, which affects the amounts reported in the Company’s accompanying financial statements for certain of its assets and expenses.

Income Taxes

The Company account for income taxes pursuant to ASC Topic 740, “*Income Taxes*”. Under ASC Topic 740, deferred tax assets and liabilities are determined based on temporary differences between the bases of certain assets and liabilities for income tax and financial reporting purposes. The deferred tax assets and liabilities are classified according to the financial statement classification of the assets and liabilities generating the differences.

Deferred Offering Costs

The Company defers as other assets the direct incremental costs of raising capital until such time as the offering is completed. At the time of the completion of the offering, the costs are charged against the capital raised. Should the offering be terminated, deferred offering costs are charged to operations during the period in which the offering is terminated.

Recent Accounting Pronouncements

The management of the Company does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the accompanying financial statements.

(2) *Going Concern*

Management of the Company believes that the Company will be successful in its capital formation and operating activities, there can be no assurance that it will be able to raise additional equity capital or be able to generate sufficient revenues to sustain its operations. The Company also intends to conduct additional capital formation activities through the issuance of its common stock to establish sufficient working capital and to expand its operations.

The accompanying financial statements have been prepared in conformity with U.S. generally accepted accounting principles (GAAP), which contemplate continuation of the Company as a going concern.

The Company has incurred an operating loss since inception and the cash resources of the Company are insufficient to meet its planned business objectives. These and other factors raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

(3) Investment in Subsidiaries

None

(4) Convertible Notes Payable

The Company has issued notes to the following companies where the debt is convertible to common stock when the lender deems proper. There have been no conversions in recent years. All notes issued prior to 2016 have passed the statute of limitations for collection procedures.

(5) Derivative Liability

The Company evaluated the conversion feature embedded in the convertible notes to determine if such conversion feature should be bifurcated from its host instrument and accounted for as a freestanding derivative. Due to the note not meeting the definition of a conventional debt instrument because it contained a diluted issuance provision, the convertible notes were accounted for in accordance with ASC 815. According to ASC 815, the derivatives associated with the convertible notes were recognized as a discount to the debt instrument, and the discount is being amortized over the life of the note and any excess of the derivative value over the note payable value is recognized as additional expense at issuance date.
